

ALEXANDRE LE BOUTHILLIER, PhD

Entrepreneur, artificial intelligence against cancer, Leader of large-scale IT projects

Montreal, Canada

SUMMARY

After 20 years of experience in IT for hospitals, space agencies, and city-wide storage infrastructure, Alexandre Le Bouthillier transformed his understanding of large systems to tackle inefficiencies in healthcare. Now, he works with world renowned AI experts and physicians to revolutionize the speed, accuracy, and ultimately clinical outcomes of cancer patients. Alexandre is a Board Member of MILA, IVADO, MEDTEQ & Montreal InVivo. With a Ph.D. in Parallel Computing and Optimization from the Université de Montréal. Le Bouthillier co-founded Imagia to realize the power of data across all medical organizations, working collaboratively to achieve medical breakthroughs.

EXPERIENCES

Co-Founder, Chief Corporate Officer

Imagia *2015 – Ongoing*

Artificial intelligence against cancer

- Managed initial investment in three (3) months and conducted M&A process
- Co-leading with Terry Fox Research Institute, the National Digital & Health Discovery Platform with 97 members
- Obtained multiple large federal and provincial loans and grants

Board Member

MILA *2018 – Ongoing*

World's largest academic artificial intelligence institute

Board Member

IVADO *2019 – Ongoing*

The institute for data valorization

Board Member

Montreal InVivo *2017 – Ongoing*

Works with all stakeholders to strengthen the growth and competitiveness of the Life Science and Health Technology (LSHT) sector

- Co-President of the AI healthcare initiative, ecosystem study with Accenture

Board Member

MEDTEQ *2016 – Ongoing*

Provides programs designed to help reduce the risks associated with product development and commercialization

- Contributed with AI rational to the renewal of the 5-year organization funding

EDUCATION

Post-Doctoral

Université de Genève

2006 – 2008 Geneva, Switzerland

PhD, M.Sc., B.Sc., Computer Science

Université de Montréal

1994 – 2006 Montreal, Canada

PUBLICATIONS

L'Innovation en santé, 2^e édition

CHU Sainte-Justine, Montreal, Canada

Book chapter on AI Health with Yoshua Bengio

2019 <https://bit.ly/2LQOCEU>

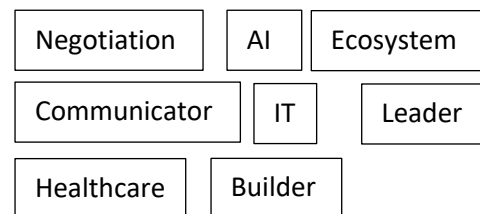

Scientific publications in Optimization

<https://bit.ly/3bX5Xa2>

MOST PROUD OF

- **Inaugural speech of the Terry Fox Run (2019)**
with Darrel Fox and participated to the run
- **Teaching AI in healthcare**
1900 online users at CHUM as part of the AI School
<https://bit.ly/2AMIsVc>
- **Presenting AI to cure cancer at Elevate**
800 attendees
<https://www.youtube.com/watch?v=KSv09Za8dP0>
- **Co-Leading the National Digital Health & Discovery Platform with the Terry Fox Research Institute and 97 members**
<https://www.ic.gc.ca/eic/site/125.nsf/eng/00020.html>

SKILLS

Vice-President, Sciences & Technology

Redprairie (JDA) 2012 – 2013

Workforce and logistics solutions

- Led worldwide RFP for optimization engine selection
- Advised pre-merger IT

Co-Founder, Chief Information Officer

Planora 2002 – 2012

Workforce optimization and artificial intelligence

- Conducted the M&A process with Redprairie (JDA) in three (3) months
- Led the financing round and IT infrastructure
- Led the Microsoft Blue Sky Award, Gold Certification & Bizspark One

IT Senior Consultant

City of Geneva&Lausanne, Switzerland 2007 – 2009

RFP & replacement of all storage infrastructure for 450K & 110K users

Virtualization Senior Consultant

Canadian Space Agency 2006 – 2007

Virtualization for all production and lab servers
(10 Managers, 600 users)

IT Senior Consultant

Sainte-Justine Hospital 1994 – 2008

& École Polytechnique

- Management of all IT Hospital Research Center needs (50 researchers)
- Deployment of IT Virology lab of Canada (5K virtual servers)

SELECTED MEDIA

- March 2, 2020 – Notre quartier: le Mile-Ex, PME – Montreal
- March 1, 2020 – L'intelligence artificielle contre le cancer, La Presse
- November 6, 2019 – Imagia utilise l'intelligence artificielle pour combattre le cancer, Les échos
- September 24, 2019 – Global News
- May 23, 2019 – Government of Canada, ISED, \$49M Award, Thank you's from Alexandre, Co-Founder of Imagia, DHDP
- April 5, 2019 – Imagia: révolutionner le monde médical à l'aide de l'IA, L'histoire d'Alexandre Le Bouthillier
- January 21, 2019 – L'intelligence artificielle va rendre le système de santé méconnaissable...et c'est tant mieux, Les Affaires
- November 23, 2018 – Imagia, Histoire de réussite, Montréal International
- November 17, 2018 – Montréal et l'intelligence artificielle, l'accord parfait, Le Monde
- June 24, 2018 – L'intelligence artificielle, une arme de plus contre le cancer, Le Devoir
- June 1, 2018 – AI Leaders' vision, AI Quebec
- June 1, 2018 – Vision des chefs de file en IA, IA Québec
- March 26, 2018 – BioMed Propulsion program to enable the discovery and commercialization of digital biomarkers through recent advances in artificial intelligence (AI) pioneered by Imagia
